Os Low Spirits Low spirits is a certain state of the mind, accompanied by indigestion wherein the greatest exils are apprehended upon the slight est grounds and the worst consequences imagined Ancient writers supposed this disease to be confined to those particular regions-of-the abdomen technically called hypochondria, which are si usted on the right or left side of that cavity, whence comes the name hypochondriasis

Simprous The common corporest symptoms TOTICE is given that the Joint Standing Com are flatulency in the stomach or bowels, acid eruc mittee of the City Council on accounts and tations custiveness, spasmodic pains, giddiness, are flatulency in the stomach or bowels, acrid eruc d mness of s ght, palpitations, and often anutter in in the City Hall from two to five o clock P M on ability of fixing the attention upon any subject of im the last Saturday of each month. All persons portance, or engaging in any thing that demands interested are requested to call at said time and vigor or courage. Also languidness, the mind be vigor or courage Also languiduess, the mind be comes irritable, thoughtful disponding melancholy and dejected, accompanied with a total derange ment of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagina tion and overwhelm the judgment exhibitan infinite , to this affliction at the weakest

CAUSES A sedentary life of any kind, especial ly severe study, protracted to a fate hour in the night and rarely relieved by social intercourse, or exercise, a dissolute liabit groot excess in eating and drinking, the immoderate use of mercuis vio lent purganives, the suppression of some habitual discharge, or long continued cruption, relaxation or sichi ily af one or more imperiant organs with

in abdomen is frequent cause TREATMENT The principal objects of treatment are to remove indigestion to strengthen the cody, and to civen the spirits which may be promoted by exercise, early hours, regular meals and pleasant conversation The bowels (if costive) being care fully requisited by the occasional use of a milti rient. We know nothing better calculated to obtain this end than Dr. Wm. Evans' Aperient Pills - being mild and certain in their operation. The bow Pills (which are tome, anondyne, & anti spaginod ic) are an infallible remedy & without dispute have proved a great blessing to the numerous public

Some physicians have recommeded a free use of melicury but it should not be resorted to, as in many cases it will greatly aggravate symptoms
